	Requested maximum production capability (gpm):						
	Quantity of water to be produced by this well annually:						
	Will the water be exported out of the	District (Kendall County)? Yes or No					
c.	PURPOSE OF WELL						
	For what purpose will the water well b	e used ?					
D.	Water Well Driller & Pump Installer Information Company contracted to drill the water well:						
	Phone Number:	TDLR License Number:					
	Company contracted to install the pu (If different than the water well driller)	mp:					
	Phone Number:	TDLR License Number:					
E. Well Spacing  Attach a copy of a location map or property survey drawn on a scale that adequately details the well site, the property location of existing wells on the subject tract, the location of the existing use(s), the limits of any designated FEMA floor the location of any existing or proposed on-site wastewater system, the location of any other potential source of conta within 150 feet of the existing wells or new well, the location of the proposed production monitoring device(s),  Please provide the distance in feet from the water well to the following:							
	Closest property line:	Closest existing well:					

Nearest on-site sewage facilities:

Concentrated Sources of Potential Contamination, such as livestock or poultry facilities:

Is the proposed well located within 50 feet of or within the service area of a retail public water utility or public water system? Yes or No

If you answered "yes," attach a document from the retail public water utility or public water supply system stating that it is unable or unwilling to provide service, or does not object to the well.

Will water from this well be transported out of the District for use? Yes or No

#### F. Additional required documentation to be attached to application

The following items must be submitted with the application:

A water conservation plan or an acknowledgement that the permittee will follow the District's adopted Year-Round Best Management Practices(initial here if you agree to follow the District's Best Management Policies, District Rule 11.3.A.).
A drought contingency plan or an acknowledgement that the permittee will follow the District's adopted Drought Management Rules(initial here if you agree to follow the District's Drought Management Rules).

#### G. Application Fee

New Permitted Low Production Wells attach the \$500 (five hundred dollars) application fee per well.

#### H. Signature

By signing this form, I declare that the information provided in this form is true and correct, to the best of my knowledge and belief. Furthermore, I am familiar with all pertinent requirements contained in the Cow Creek Groundwater Conservation District Rules. I agree to allow District representatives to enter the well site property to inspect during drilling and upon well completion. I agree and acknowledge that if the information I have provided changes in the future, it is my responsibility and the responsibility of the well owner to provide the new information to the District. I understand that a change in this information may result in additional fees and requirements. I agree to abide by the terms of the Cow Creek Groundwater Conservation District Rules, the District Management Plan, and orders of the Board of Directors. I agree to report to the District. I agree that I have the legal authority to produce the groundwater associated with the land surface and that this permit may be amended or revoked, based on the legal transfer of the associated groundwater rights or right to produce groundwater to another person/entity. I agree that the permit may be amended in the future due to enforcement of the adopted desired future conditions of the aquifer and the District's rules. I understand that failure to abide by the terms of this permit will result in civil penalties and/or revocation of this permit.
